1. Product and Company Identification

Product number: RA001C
Material name: Glass Cleaner
Company information: PRO-LINK, INC
421 RICHMOND RD.
OTTAWA, ON K1Z 1E9  Canada
Company phone: General Assistance 613-722-0798
Emergency telephone US: 1-866-836-8855
Emergency telephone outside US: 1-952-852-4646
Version #: 01
Expiry Date: 16-Jun-2017
Product use: cleaner

2. Hazards Identification

Emergency overview: Aerosol. Pressurized container may explode when exposed to heat or flame.

WARNING

Contents under pressure. May be harmful if swallowed, in contact with skin or if inhaled. May cause eye/skin irritation.

Potential health effects

Routes of exposure: Inhalation. Ingestion. Skin contact. Eye contact.

Eyes: Contact with eyes may cause irritation.
Skin: May be harmful if absorbed through skin. May cause skin irritation. Do not get this material in contact with skin.

Inhalation: Intentional misuse by concentrating and inhaling the product can be harmful or fatal. May be harmful by inhalation. May cause irritation of respiratory tract.

Ingestion: Exposure by ingestion of an aerosol is unlikely. Irritating. May cause nausea, stomach pain and vomiting.

Chronic effects: May be harmful if absorbed through skin. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis.

Signs and symptoms: Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Symptoms may include redness, edema, drying, defatting and cracking of the skin.

Potential environmental effects: May cause long-term adverse effects in the environment.

3. Composition / Information on Ingredients

Components | CAS # | Percent |
--- | --- | --- |
Butane | 106-97-8 | 1 - 5 |
Ethanol | 64-17-5 | 1 - 5 |
Ethylene Glycol Monobutyl Ether | 111-76-2 | 1 - 5 |
Propane | 74-98-6 | 1 - 5 |
Other components below reportable levels | | 60 - 100 |

4. First Aid Measures

First aid procedures

Eye contact: Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Continue rinsing.

Skin contact: Wash off with soap and water. Get medical attention if irritation develops and persists.
Inhalation
If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. If symptoms develop move victim to fresh air. Get medical attention, if needed. Call a physician if symptoms develop or persist.

Ingestion
In the unlikely event of swallowing contact a physician or poison control center. Rinse mouth.

Notes to physician
Treat symptomatically.

General advice
If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire Fighting Measures

Flammable properties
Heat may cause the containers to explode. Ruptured cylinders may rocket.

Extinguishing media

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Protection of firefighters
Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed. Firefighters should wear full protective clothing including self contained breathing apparatus. Structural firefighters protective clothing will only provide limited protection.

Fire fighting equipment/instructions
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Cool containers exposed to heat with water spray and remove container, if no risk is involved. Do not direct water at source of leak or safety devices as icing may occur. Containers should be cooled with water to prevent vapor pressure build up. Some of these materials, if spilled, may evaporate leaving a flammable residue.

Explosion data

Sensitivity to static discharge
Not available.

Sensitivity to mechanical impact
Not available.

Hazardous combustion products
Carbon oxides.

6. Accidental Release Measures

Personal precautions
Consider initial downwind evacuation for at least 500 meters (1/3 mile). Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. For personal protection, see section 8 of the MSDS.

Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

Methods for containment
If possible, turn leaking containers so that gas escapes rather than liquid. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Prevent entry into waterways, sewer, basements or confined areas.

Methods for cleaning up
Ventilate the area. Should not be released into the environment. Isolate area until gas has dispersed. Clean up in accordance with all applicable regulations. For waste disposal, see section 13 of the MSDS. Stop the flow of material, if this is without risk. Clean surface thoroughly to remove residual contamination.

Other information
Never return spills to original containers for re-use.

Clean up in accordance with all applicable regulations.
7. Handling and Storage

Handling
Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Do not re-use empty containers. Do not get in eyes, on skin, or on clothing. Avoid breathing mist or vapor. When using do not eat or drink. Do not use in areas without adequate ventilation. Wash thoroughly after handling. All equipment used when handling the product must be grounded. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Avoid release to the environment.

Storage
Do not handle or store near an open flame, heat or other sources of ignition. Keep in an area equipped with sprinklers. Level 1 Aerosol.

Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. This material can accumulate static charge which may cause spark and become an ignition source. Keep containers tightly closed in a dry, cool and well-ventilated place. Store away from incompatible materials (see Section 10 of the MSDS).

Engineering controls
Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

Eye/face protection
If contact is likely, safety glasses with side shields are recommended.

Skin protection
Wear suitable protective clothing.

Respiratory protection
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

Hand protection
For prolonged or repeated skin contact use suitable protective gloves.

9. Physical & Chemical Properties

Appearance
Clear.

Physical state
Gas.

Form
Aerosol. Compressed gas.

Color
Light yellow.

Odor
Characteristic.

Odor threshold
Not available.

pH
9.1 - 10.1 estimated

Vapor pressure
80 - 100 psig @70°F estimated

Vapor density
Not available.

Boiling point
212 °F (100 °C) estimated

Melting point/Freezing point
Not available.

Solubility (water)
Not available.

Specific gravity
0.977 - 0.997

Relative density
Not available.

Flash point
-156.0 °F (-104.4 °C) Propellant estimated

Flammability limits in air, upper, % by volume
Not available.
Flammability limits in air, lower, % by volume: Not available.
Auto-ignition temperature: Not available.
Evaporation rate: Not available.
Partition coefficient (n-octanol/water): Not available.

Other data:
- Aerosol spray enclosed space
  - Deflagration density: > 2.52 g/cm³ Tested
  - Aerosol spray ignition distance: < 15 cm Tested estimated

10. Chemical Stability & Reactivity Information

Reactivity: The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability: Risk of explosion.
Conditions to avoid: Avoid heat, sparks, open flames and other ignition sources. Contact with incompatible materials.
Incompatible materials: Strong oxidizing agents.
Hazardous decomposition products: No hazardous decomposition products are known.
Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use. Hazardous polymerization does not occur.

**Acute**

**Inhalation**
LC50 | Mouse | 1237 mg/l, 120 Minutes
52 %, 120 Minutes
Rat | 1355 mg/l
| 658 mg/l/4h

**Acute effects** May be harmful if swallowed. May be harmful in contact with skin. May be harmful if inhaled.

**Sensitization** This product is not expected to cause skin sensitization. Not a respiratory sensitizer.

**Chronic effects** May be harmful if absorbed through skin.

2-Butoxy ethanol may be absorbed through the skin in toxic amounts if contact is repeated and prolonged. These effects have not been observed in humans.

**Carcinogenicity**

**ACGIH Carcinogens**
Ethylene Glycol Monobutyl Ether (CAS 111-76-2) A3 Confirmed animal carcinogen with unknown relevance to humans.

**IARC Monographs. Overall Evaluation of Carcinogenicity**
Ethylene Glycol Monobutyl Ether (CAS 111-76-2) 3 Not classifiable as to carcinogenicity to humans.

**Skin corrosion/irritation** May be irritating to the skin.

**Serious eye damage/irritation** May be irritating to eyes.

**Mutagenicity** No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Reproductive effects** This product is not expected to cause reproductive or developmental effects.

**Teratogenicity** No data available to indicate product or any components present at greater than 0.1% may cause birth defects.

**Synergistic materials** Not available.

**12. Ecological Information**

#### Ethylene Glycol Monobutyl Ether (CAS 111-76-2)

- **Aquatic**: LC50 Fish 1250 mg/l, 96 hours

#### Ecotoxicity
- Harmful to aquatic life.

#### Environmental effects
- An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

#### Aquatic toxicity
- The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

#### Persistence and degradability
- No data is available on the degradability of this product.

#### Bioaccumulation / accumulation
- No data available.

#### Partition coefficient

#### Other adverse effects
- No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal Considerations

#### Disposal instructions
- Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

#### Waste from residues / unused products
- Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

#### Contaminated packaging
- Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Do not re-use empty containers.

### 14. Transport Information

#### TDG
- UN number: UN1950
- UN proper shipping name: AEROSOLS, non-flammable
