

PRO-2000[®]

Ice Melter with CMA

Works down
to -25°C

*Formulated for Safer
Removal of Snow and Ice*

PRO-2000[®]

**Ice Melter
with CMA**

SAFER TO HANDLE

Easy to use. No protective clothing necessary.

LESS HARMFUL TO VEGETATION

Non-hygroscopic formulation. Won't hurt grass, trees or other vegetation.*

NON-TRACKING

Will not harm carpets and floors. Will not damage leather or footwear.

LESS DAMAGE TO CONCRETE

Reduced damage to wood and concrete makes this one of the safest ice melters.*

EASY DISPERSION

Extended shelf life.

REDUCED CORROSION TO METALS

Anti-corrosion agents reduce damage to vehicles, equipment and other metal surfaces.

*When used as directed

Anti-Corrosion Formula

CMA (Calcium Magnesium Acetate) is an environmentally benign de-icer. Where metal corrosion is a concern, **PRO-2000's[®]** special formula creates a bond between the surface area and the elements to protect against corrosion.

Fast Acting

PRO-2000[®] combines the most effective de-icing ingredients; creating the desired reaction to initiate de-icing and meltdown. **PRO-2000[®]** when pre-applied prevents ice and snow from bonding to the surface area. As **PRO-2000[®]** goes to work, its time-released formula stays on the surface area longer, helping to control the freeze/thaw cycle.

Health and Safety

PRO-2000[®] is safer to handle without protective clothing. It does not dry out or irritate the skin.*

Non-Tracking

When properly dispensed, **PRO-2000[®]** minimizes tracking on floors and carpets.

Environmentally Formulated

Nature's own ingredients combine for just the right formula. Unlike some de-icers, **PRO-2000[®]** works to preserve vegetation and plant life when used as directed. With **PRO-2000[®]**, there is no slimy residue being tracked in, making clean up virtually non-existent.

Easily Dispersed & Extended Shelf Life

PRO-2000[®] is specially formulated with an anti-caking agent to allow for free-flowing dispersion.

Visually Measured

Not only will you see the quick action of **PRO-2000[®]**, specially coated with a blue color indicator, going to work on the ice and snow, this product will allow the precise spreading to ensure cost-effective dispersion.
