

EP020

Floor Finish

Ready To Use Formula

For high traffic and high gloss floors • Durable Stain and Black heel mark resistance • Designed for UHS burnishing system • Easy to clean • Easy to maintain

PRO•LINK ECO•PRO Floor Finish is an Environmentally Preferred Product that has a wet look finish, it can be UHS burnished, buffed, or maintained through a scrub and recoat program. Easily maintained, is durable, stain and black mark resistant, meets standard for slip resistance.

DIRECTIONS:

It's recommended to use a flat monofilament finish mop or microfiber finish mop, pouring finish directly from its container.

SCRUB AND RECOAT: 1) Recoat every 4 – 8 weeks, or as needed 2) Dry mop area 3) Scrub with a blue or green pad and Pro•Link Eco•Pro Neutral Cleaner EP002, 1:16 4) Rinse and let dry 5) Apply 1 –2 coats of Pro•Link Eco•Pro Floor Finish EP020

CLEANING – RESTORING GLOSS: Dry mop daily. Burnish regularly - recommend white or restoring pad. Do not use hogs hair pad.

CLEAN AND SHINE: Automatic Scrubbers: 1) Dry mop 2) Clean with Pro•Link Eco•Pro Neutral Cleaner EP002, 1:64 with a red pad 3) Allow floor to dry - burnish (with white or restoring pad)

Mop & Bucket: 1) Dry mop 2) Damp mop with Pro•Link Eco•Pro Neutral Cleaner EP002 1:32 3) No rinse required 4) Let dry - burnish (with white or restoring pad)

Before application: 1) remove old coatings with Pro•Link Eco•Pro Floor Finish Stripper EP025 2) Pick up stripper solution using wet vacuum 3) Thoroughly rinse and neutralize floor. No sealer required except for new floors, very porous floors, or very high traffic. If so, apply 1 or 2 thin coats of Pro•Link Eco•Pro Floor Finish EP020 to seal floor. 4) Apply 3 to 4 coats of Pro•Link Eco•Pro Floor Finish EP020 5) Allow at least 15 minutes after dry to touch between coats
