

# PRO-2000<sup>®</sup>

**Ice Melter  
with CMA**

**Works down  
to -25°C**

Powered by / Utilisant  
**HYBRID  
CRYSTALS**

*Formulated for Safer  
Removal of Snow and Ice*

# PRO-2000<sup>®</sup>

## Ice Melter with CMA

### SAFER TO HANDLE

Easy to use. No protective clothing necessary.

### LESS HARMFUL TO VEGETATION

Non-hygroscopic formulation. Won't hurt grass, trees or other vegetation.\*

### NON-TRACKING

Will not harm carpets and floors. Will not damage leather or footwear.

### LESS DAMAGE TO CONCRETE

Reduced damage to wood and concrete makes this one of the safest ice melters.\*

### EASY DISPERSION

Extended shelf life.

### REDUCED CORROSION TO METALS

Anti-corrosion agents reduce damage to vehicles, equipment and other metal surfaces.

\*When used as directed

### Anti-Corrosion Formula

**CMA (Calcium Magnesium Acetate)** is an environmentally benign de-icer. Where metal corrosion is a concern, **PRO-2000's<sup>®</sup>** special formula creates a bond between the surface area and the elements to protect against corrosion.

### Fast Acting

**PRO-2000<sup>®</sup>** combines the most effective de-icing ingredients; creating the desired reaction to initiate de-icing and meltdown. **PRO-2000<sup>®</sup>** when pre-applied prevents ice and snow from bonding to the surface area. As **PRO-2000<sup>®</sup>** goes to work, its time-released formula stays on the surface area longer, helping to control the freeze/thaw cycle.

### Health and Safety

**PRO-2000<sup>®</sup>** is safer to handle without protective clothing. It does not dry out or irritate the skin.\*

### Non-Tracking

When properly dispensed, **PRO-2000<sup>®</sup>** minimizes tracking on floors and carpets.

### Environmentally Formulated

Nature's own ingredients combine for just the right formula. Unlike some de-icers, **PRO-2000<sup>®</sup>** works to preserve vegetation and plant life when used as directed. With **PRO-2000<sup>®</sup>**, there is no slimy residue being tracked in, making clean up virtually non-existent.

### Easily Dispersed & Extended Shelf Life

**PRO-2000<sup>®</sup>** is specially formulated with an anti-caking agent to allow for free-flowing dispersion.

### Visually Measured

Not only will you see the quick action of **PRO-2000<sup>®</sup>**, specially coated with a blue color indicator, going to work on the ice and snow, this product will allow the precise spreading to ensure cost-effective dispersion.
