Product dilution and dispensing

## Wall Units

**Multi Product**  
Low Flow

**Single Product**  
High Flow

### Pro-Link CleanBlend:

Multiple Select Low Flow,  
Single Select High Flow

Pro-Link's CleanBlend dilution control system is designed to be versatile, simple and safe. This unit provides maximum flexibility for a facility's cleaning needs with one bucket and four bottle fill options in one convenient location.

- Dispense multiple products from multiple packaging shapes and sizes
- Space-saving design
- Ensures accurate dilution regardless of water pressure

35706

39301/39331

### AccuPro 1-Button

Easy, one button operation consistently dispenses the precise amount of chemical. A great option where space is limited.

- Integrated pressure regulator
- Backflow protection
- Space-saving design
- Available in high flow (3.5 GPM) and low flow (1 GPM) configurations

Adjustable dilution ratios:\*

1 GPM - minimum 128:1, maximum 2.5:1

3.5 GPM - minimum 450:1, maximum 3.5:1

\* Leaner dilutions possible – Contact Customer Service for information.

Easily fill bottles and buckets wherever there is a water source

**Satellite Foamer**

Conveniently applies the solution where needed — product dispensing is controlled by a trigger, making application quick and easy.

- Foam Tip is ideal for shower rooms or any vertical surface area requiring cling or extra dwell time.
- Spray Tip is perfect for large areas such as food processing plants, supermarkets, shower areas, health care and educational facilities.

**Satellite Bucket Unit**

Designed for workers on the move. Only requires a water source to dispense properly diluted chemicals anywhere, anytime. No installation required. Ideal for large facilities with multiple floors or buildings.

- Great for remote dispensing of chemicals
- Portable unit offers extreme mobility

**Pro-Link CleanBlend:  
 With Chemical  
 Enclosure Cabinet**

Multiple Select Low Flow,  
 Single Select High Flow

Provides all the benefits of the  
 CleanBlend System PLUS:

- Lockable enclosure increases safety
- “Pop & latch” mounting bracket allows best placement of chemical concentrate cabinet
- Customizable to suit your specific application
